HIRING!

Executive - Supply Chain Operation

DEADLINE:
15th January, 2026

Scan the QR or use the link in the caption to apply.

Key responsibilities:

- Work closely with the Supply Chain Manager to execute daily operations.
- Analyze product performance metrics (Unique Views, Conversion, Traffic) and recommend promotional strategies for high-potential SKUs.
- Identify underperforming products; provide insights to the business team to optimize assortment and inventory.
- Conduct product analysis to highlight growth drivers and address lagging categories or SKUs.
- Perform pricing elasticity studies to understand customer response to price changes and recommend optimal price points.
- Develop and maintain dashboards and regular reports to track key supply chain and sales indicators.

Requirements

- Bachelor's degree in Business, Marketing, Statistics, or a related field from any reputed university.
- 0-2 years of relevant experience; fresh graduates are also encouraged to apply.
- Strong analytical ability and proficiency in MS Excel.
- Participation in business competitions or strong Extra-Curricular Achievements (ECA) is a plus.
