

Position: Junior MERN Developer

Salary: 20,000 BDT/Monthly, with 10-20% annual increase and promotions after every 2-4 years based on performance.

Mandatory Internship Period: 10,000 BDT for 5 months, followed by a permanent position with full salary.

Location: Remote

Work Load: 45 Hours/week, totaling 195 hours per month

We're searching for a MERN Stack Developer skilled in both backend and frontend development. This role is pivotal in bolstering our in-house team, especially during times of increased project demand.

Requirements:

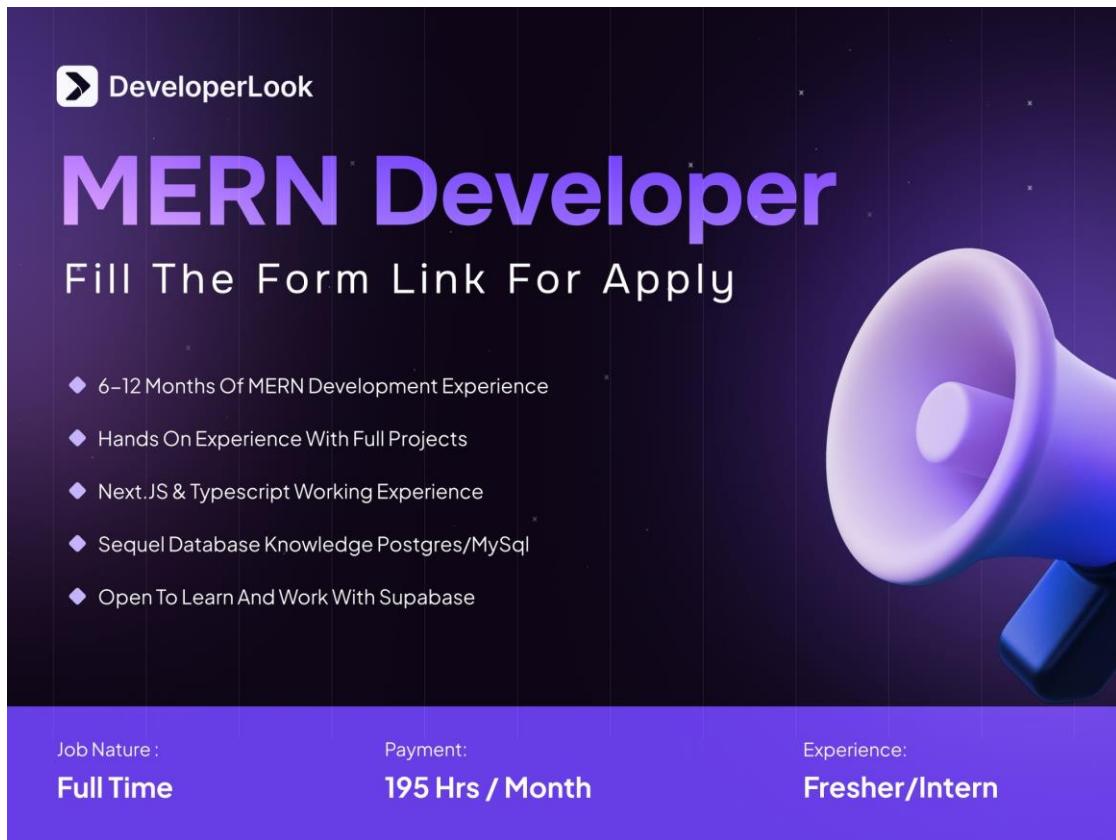

- Solid experience as a MERN Stack Developer.
- Strong proficiency in frontend technologies, including HTML, CSS, JavaScript, and React.js.
- Comprehensive understanding of backend development using Node.js & Express.js and MongoDB.
- NEXT.js skills will be a plus.
- Proven experience with NoSQL databases and version control tools, such as Git.
- Analytical mindset, detail-oriented, and a knack for problem-solving.
- Exceptional communication abilities, with the skill to break down complex technical concepts.

Role & Responsibilities:

- Collaborate with our in-house team to build and enhance applications using the MERN stack.
- Translate UI/UX designs into responsive, visually compelling elements using modern JavaScript frameworks and libraries.
- Participate in design and architecture discussions, always advocating for coding best practices.
- Troubleshoot, test, and maintain the core product software to ensure strong optimization and seamless functionality.

- Stay updated with emerging frontend and backend technologies, bringing forward creative solutions to intricate challenges.
