

We're Hiring Software Engineer Interns at Autonix

Head Office: Bashundhara R/A, Dhaka

Duration: Internship – 3 Months

Location: Remote / On-site

Potential Permanent Role: Based on performance

Application Deadline: December 17, 2025

We are seeking enthusiasts, not experts.

If you are highly skilled or over-experienced, this opportunity may not be suitable for you.

We welcome learners who are eager to grow with us and gain practical experience.

Key Responsibilities

Feature Development and Maintenance

- Assist in the creation, maintenance, and enhancement of UI layouts, frontend components, backend logic, marketing assets, or design materials depending on your team.
- Learn and apply modern tools and technologies such as JavaScript, React, UI/UX fundamentals, backend basics, or marketing frameworks.
- Produce clear, structured, and meaningful contributions under guidance.

Collaboration and Integration

- Work closely with design, development, creative, and marketing teams.
- Support the integration of ideas, components, and content into active projects.
- Participate actively in weekly meetings, planning sessions, and discussions.

Code Quality and Learning

- Join review sessions to understand and implement best practices.
- Identify and resolve issues in assigned tasks.
- Enhance workflow, structure, and problem-solving skills.

Technical and Creative Growth

- Explore new tools, frameworks, and creative approaches.
- Contribute ideas to improve workflow, output quality, and project outcomes.

Skills and Tools to Learn

- JavaScript fundamentals, UI/UX basics, backend concepts, or marketing strategies depending on your role
- HTML, CSS, responsive design, and creative layout thinking
- Working with APIs, design tools, content systems, or project workflows
- Git version control
- Problem-solving, critical thinking, task ownership
- Communication and teamwork

Prior experience is not required; this internship is designed for learning and growth.

Internship Benefits

- Work from anywhere
- Flexible hours suitable for students and learners
- Weekly mentorship and feedback
- Real project experience for your portfolio
- Internship certificate upon completion
- Opportunity to continue based on performance
